APERITIF

Zurück zur Normalität – das haben sich alle sehnlichst gewünscht: Unsere Normalität ist jedoch das Besondere, das Aufregende, das Kreative. Der BCB war schon immer ein Eintauchen in eine neue Welt. Eine dreitägige Erlebnisreise durch verschiedene Geschmäcker und einmalige Aktionen, die es so sonst nirgends gibt. Abgerundet durch das Bild aufwendiger und kreativer Standbauten und einzigartiger Persönlichkeiten aus aller Welt.

Wir wollen das nachholen, was die vergangenen Jahre in dieser Form nicht möglich war. Überraschen, mutig sein und einmalige Erlebnisse schaffen. Letztes Jahr wurde bereits der erste Schritt getan, dieses Jahr gehen wir noch ein paar weiter.

Das Ganze erneut in unserem neuen Zuhause – den Berliner Messehallen. Insgesamt 1.400 Marken verteilt auf sechs Hallen gibt es hier zu entdecken: Von Gin, Likör und Tequila bis hin zu Bitter, Whiskey und Wermut präsentieren die gut 450 Aussteller neue Produkte und Geschmackserlebnisse. Wir freuen uns außerdem sehr auf die rund 214 Neuaussteller, die erstmals auf dem BCB zu sehen sein werden, zu denen unter anderem einige unserer diesjährigen „Young Guns“ zählen.

Neuentdeckungen gibt es auch im Pavillon unseres Partnerlandes Dänemark. In Halle 18 werden einige der besten und innovativsten dänischen Produkte vorgestellt. Hier könnt ihr obendrein das besondere „hygge“-Gefühl erleben, welches den dänischen Lebensstil so einmalig macht: eine Form des Beisammenseins, der Gemütlichkeit und des Genusses.

Das Miteinander und das Genießen umwerfender Drinks stehen auch im Fokus unserer Bar-Hotspots auf dem Bar Convent Berlin. So hat das Team der dänischen Bar „Kyros & Co.“ extra für den BCB ihre Bar von Kopenhagen nach Berlin verlegt, um drei Tage lang eine ganz besondere Speakeasy Bar zum Leben zu erwecken. Ebenso ist das Bar-Team des „14 De La Rosa“ aus Barcelona angereist, um in den Berliner Messehallen mit spannenden Produkten eine Aperitivo Bar zu bespielen.

Natürlich steht zudem der Aspekt der Weiterbildung wieder im Fokus des BCB. Auf insgesamt sieben Bühnen könnt ihr Vorträgen internationaler Speaker lauschen, an Workshops teilnehmen und euren kulinarischen Horizont erweitern.

Aber auch, wenn sich die Messehallen abends schließen, geht es wieder hinaus ins einzigartige Nachtleben Berlins: Die BCB Abendevents mit Gastschichten internationaler Bar-Teams der Extraklasse werden wieder einige Nachtschwärmer unter euch in die angesagtesten Bars der deutschen Hauptstadt locken.

Es gibt also eine ganze Menge Highlights, denen wir entgegenfiebern. Besonders freuen wir uns aber darauf, zu sehen, wie Menschen aus unterschiedlichen Ländern und Kulturen aufeinandertreffen, respektvoll miteinander umgehen und friedlich gemeinsam anstoßen: So sollte es immer sein. In diesem Sinne: Cheers – auf drei inspirierende und erfolgreiche Messestage!

Euer BCB-Team

APERITIF

Back to normality – that's what everyone has been longing for: but our normality is the special, the exciting, the creative. BCB has always been an immersion into a new world. A three-day journey of experience through different tastes and unique actions that cannot be found anywhere else. Rounded off by the image of elaborate and creative stand constructions and exceptional personalities from all over the world.

We want to make up for everything that was not possible in the last years. Surprise, be bold and create unique experiences. Last year we already took the first step, this year we're going a few steps further.

Once again in our new home – the Berlin exhibition halls. A total of 1,400 brands spread across six halls can be discovered here: from gin, liqueur and tequila to bitters, whiskey and vermouth, about 450 exhibitors will present new products and taste experiences. We are also very much looking forward to the around 214 new exhibitors who will be at BCB for the first time, including some of our "Young Guns" this year.

New discoveries can be found in the pavilion of our Country of Honour Denmark. In Hall 18, some of the best and most innovative Danish products will be presented. Here you can also experience the special "hygge" feeling that makes the Danish lifestyle so unique: a form of togetherness, coziness and enjoyment.

Coming together and enjoying stunning drinks are the focus of our bar hotspots at Bar Convent Berlin. For example, the Danish bar team of "Kyros & Co." moved their Bar from Copenhagen to Berlin, especially for BCB to bring an extraordinary Speakeasy Bar to life for three days. Likewise, the bar team of "14 De La Rosa" has travelled from Barcelona to set up an Aperitivo Bar in the exhibition halls with many different exciting products.

And of course, BCB will once again focus on the aspect of education. On a total of seven stages you can listen to lectures by international speakers, take part in workshops and expand your culinary horizons.

But even when the exhibition halls close in the evening, it's back out into Berlin's unique nightlife: the BCB guest shifts with top international bar teams will once again attract some night owls among you to the hottest bars in the German capital.

Overall, there are a lot of highlights we are looking forward to. But we are especially looking forward to seeing how people from different countries and cultures meet, treat each other with respect and toast together peacefully: That's how it should always be.

With this in mind: Cheers – to three inspiring and successful days!

URBAN GARDENING HALLE 18-C31

Die Urban Gardening Area in Halle 18 setzt den Fokus ganz klar auf Wissensvermittlung rund um das Thema Kräuter. Hier könnt ihr euch zum Thema Pflanzen und Kräuterkunde weiterbilden: Über die drei Messestage hinweg werden nämlich lehrreiche Hands-on Workshops in kleinen Gruppen angeboten unter anderem mit Ruben Neideck (ehemals Bartender Velvet, Berlin) und Matze Wilkens aus dem Prinzessinnengarten, Berlin. Die Kräuterbibliothek bietet zudem die Möglichkeit verschiedene Kräuter und Destillate zu verkosten. Obendrein gibt es eine Präsentation zu den Basics von Rotationsverdampfern, dessen Funktionen in einem Workshop näher erklärt werden. Zu guter Letzt, wird auch noch ein Beitrag zum Klimaschutz geleistet und im Rahmen einer Kooperation mit Eco Spirits Bäume gepflanzt.

APERITIVO FEELING MITTEN IN DER MESSEHALLE: DIE BCB APERITIVO BAR HALLE 17-C41

In der Aperitivo Bar könnt ihr in einmaliger Atmosphäre verschiedenste Produkte verkosten und das besondere Aperitivo Feeling erleben. Das Bar team der „14 De La Rosa“ aus Barcelona wird euch vor Ort typische Aperitivo Drinks mit eigens kreierten Rezepten mixen. Ein weiteres Highlight: Der Barnachbau des Hotspots ist angelehnt an die echte Trend-Bar in Barcelona.

Mit dem Bar-Pop-Up möchte der BCB an den Erfolg der Bauhaus Bar im vergangenen Jahr anknüpfen und die Wichtigkeit der Aperitivo-Kultur hIGHLIGHTEN.

URBAN GARDENING HALLE 18-C31

The Urban Gardening Area in Hall 18 clearly focuses on know how about herbalism. You can learn more about plants and herbs: Educational hands-on workshops in small groups will be offered throughout the three days of the fair by specialist Ruben Neideck (former Bartender Velvet, Berlin) and Matze Wilkens from Prinzessinnengarten, Berlin. The herb library offers the opportunity to taste various herbs and distillates. On top of that, there will be a presentation on the basics of rotary evaporators, the functions of which will be explained in more detail in a workshop. Last but not least, a contribution to climate protection will be made and trees will be planted as part of a cooperation with Eco Spirits.

APERITIVO FEELING RIGHT IN THE EXHIBITION HALL: THE BCB APERITIVO BAR HALLE 17-C41

In the Aperitivo Bar you can taste a wide variety of products in a unique atmosphere and experience that special aperitivo feeling. The bar team of "14 De La Rosa" from Barcelona will mix typical aperitivo drinks with specially created recipes. Another highlight: the bar replica of the hotspot is based on the real trend bar in Barcelona.

With the bar pop-up, BCB wants to build on last year's success of the Bauhaus Bar and highlight the importance of aperitivo culture.

WEITERE HOTSPOTS ERWARTEN EUCH

„Späti“ gehören zu Berlin, wie die Berliner Mauer (und natürlich der BCB). Aus diesem Grund dachte sich das BCB Team: Holen wir doch für das optimale Berlin Feeling zwei Späti's in die Messehallen. Der perfekte Stopp für den Kiosksnack zwischendurch im Großen und Kleinen Stern.

Ebenfalls wieder am Start ist der **BCB Merch-Shop im Eingangsbereich in Halle 19:** Hier könnt ihr euch mit coolen Shirts und stylischen Hoodies einkleiden. Dieses Jahr wieder mit neuen Designs von der Berliner Tattoo-Künstlerin Guen Douglas. Nur solange der Vorrat reicht!

Und für alle, die sich zwischendurch einmal kurz zurückziehen und arbeiten möchten, gibt es die **Co-Working Area** in der oberen Etage des Palais.

MORE HOTSPOTS ARE WAITING FOR YOU

"Späti" are as much a part of Berlin as the Berlin Wall (and of course BCB). For this reason, the BCB team figured: Let's add Späti's to the exhibition halls for the ultimate Berlin feeling. The perfect stop for a kiosk snack in between to be found right in the Traisit Areas Kleiner Stern & Großer Stern.

Also returning is the **BCB Merch Shop in hall 19, entrance area:** Here you can dress up in cool shirts and stylish hoodies. This year with new designs from Berlin's Tattoo Artist Guen Douglas. Only while stocks last!

And for those who want to take a break and get some work done, there is a **co-working area** on the upper floor of the Palais.

COUNTRY

DÄNEMARK IST DAS PARTNERLAND DES BAR CONVENT BERLIN 2022

„Skål!“ – diesen Ausruf wird man in diesem Jahr auf dem BCB wahrscheinlich häufiger hören. Der skandinavische Trinkspruch ist nämlich Programm. Dänemark ist das Partnerland 2022!

Dänemark gilt als eines der glücklichsten Länder der Welt und ist bekannt für seinen einmaligen Lebensstil – „hygge“. Der dänische Begriff bezieht sich auf eine Form des Beisammenseins, der Gemütlichkeit und des Genusses. Diese positive Lebensart spiegelt sich auch in der dänischen Barszene wider – perfekt also für den BCB, bei dem das Zusammentreffen der Branche und der Genuss von guten Drinks im Vordergrund stehen.

Die dänische Spirituosenindustrie ist sehr kreativ und hat eine große Auswahl an verschiedenen Spirituosen, die hauptsächlich mit lokalen Pflanzen hergestellt werden. Zu den bekanntesten gehören Aquavit und Schnaps, aber auch dänischer Gin, Rum und Whiskey erfreuen sich großer Beliebtheit. Die Industrie ist immer noch sehr von der alten Tradition inspiriert, während sie neue Wege der Destillation einführt. Viele Hersteller bleiben zwar der Tradition treu, aber versuchen neue und innovative Wege zu finden, um auf umweltfreundliche Weise zu produzieren.

DENMARK IS COUNTRY OF HONOUR AT BAR CONVENT BERLIN 2022

“Skål!“ – this toast will probably be heard quite often at BCB this year, setting the scene for Denmark, as this country is the official Country of Honour 2022!

Denmark is considered one of the world's happiest countries and known for its unique “hygge” lifestyle. This Danish term refers to a form of togetherness, homeliness and enjoyment. This positive mindset is also reflected in the Danish bar scene – a perfect match for BCB, which moves the get-together of the industry and the enjoyment of good drinks centre stage.

The Danish spirits industry is very creative and has a wide variety of different spirits to offer that are primarily made with local plants. The most well-known ones include Aquavit and Snaps, but also Danish Gin, Rum, and Whiskey enjoy great popularity. The industry is still strongly inspired by old traditions while opting for new ways in distilling at the same time. Many manufacturers stay true to tradition but try to find new and innovative ways to produce in an eco-friendly way.

They are gluten-free, vegan-friendly, low-calorie and low-sugar as well as made without added sweeteners or artificial flavours. So, pure fun for people looking for a healthier alternative to beer. At this year's BCB, the Spanish company will prepare Hard Seltzer inspired cocktails for their booth visitors.

FRUCHTIG, FRUCHTIGER, „STRAWBAR“

Strawbar wurde von einem jungen Team aus Griechenland gegründet, welches professionelle Handwerkskunst und traditionelle Destillationsverfahren zur Herstellung ihrer Produkte verwendet. Das Eau de Vie wird ausschließlich aus handgepflückten, biologisch angebauten Walderdbeeren in Florina, Griechenland hergestellt. Es wird in zwei Stärken destilliert: Origin 40% und Platinum 45%.

"Wir wollten vor allem die lokalen Produkte nutzen und fördern, die uns die Natur zur Verfügung gestellt hat, und gleichzeitig die ländliche Wirtschaft unterstützen. Nach einer intensiven Forschungs- und Entwicklungsphase kombiniert Strawbar die Eigenschaften eines destillierten Produkts mit dem Geschmack und dem Nachgeschmack von Erdbeeren, was es unserer Meinung nach einzigartig macht", sagt die Haupt-Destillateurin.

FRUITY, FRUITIER, "STRAWBAR"

Strawbar was founded by a young team from Greece who uses professional craftsmanship and traditional distillation methods to create their products. The Eau de Vie is made exclusively from hand-picked, organically grown wild strawberries in Florina, Greece. It is distilled in two strengths: Origin 40% and Platinum 45%.

"We particularly wanted to use and promote the local products that nature has provided while helping the rural economy. Following an intense period of research and development, Strawbar combines the properties of a distilled product with the flavour and aftertaste of strawberries, which we believe makes it unique," says the Lead Distiller.

„POLLY“: VOLLER GENUSS, OHNE VERZICH

Den Gründern von Polly fehlte bei den üblichen alkoholfreien Alternativen immer das gewisse Etwas. Da-her entschieden sie sich dazu, selbst eine Lösung zu finden und einen Drink zu kreieren, der klassischen Spirituosen geschmacklich in nichts nachsteht. Leckere Kräuter in Kombination mit ausgewählten Botanicals machen Polly zu einem einzigartigen Geschmackserlebnis und zu einer idealen alkoholfreien Erfrischung.

Der Italian Aperitif ist ein bittersüßer Mix aus süßen Orangen und einer Kräutermischung mit Enzian und bildet die perfekte sonnige Geschmacksexplosion. Bei dem London Classic trifft Ingwer auf Gurke und verspricht eine einzigartige Kombination aus milder Schärfe und Erfrischung pur. Mit einem Hauch Zitrone ist es der perfekte Drink für einen Sundowner.

FÜR DIE KLEINE PAUSE ZWISCHENDURCH: „MALIK-MINT“

Als Gründerin Saddia während einer Auszeit von ihrem Job durch Südostasien reiste, entdeckte sie in Pakistan den exotischen Geschmack von Limette in Kombination mit Minze. Schnell waren die Begeisterung und der Wunsch entfacht, den erfrischenden Mix auch in der westlichen Welt zu etablieren. Das Ziel: Der Genuss einer Flasche MalikMint soll eine erfrischende Art der Quality-Time sein und den Konsumenten für einen Moment die Hektik des Alltags vergessen lassen. Das Getränk gibt es in den Geschmacksrichtungen Minze-Rhabarber, Minze-Limette und Minze-Apfel.

Das Unternehmen setzt sich zudem für einen nachhaltigen Lebensstil und einen positiven Beitrag für die Welt ein. Vom Pfandsystem, das den ökologischen Fußabdruck verringert, über Zutaten aus einem kontrollierten und ökologischen Anbau bis hin zur Unterstützung eines Waisenheims in Benin. Höchste Zeit also, um einmal auf den Refresh-Button zu drücken!

“POLLY”: FULL ENJOYMENT, WITHOUT RENUNCIATION

The founders of Polly always felt that the usual non-alcoholic alternatives lacked that certain something. So, they decided to find a solution themselves and created a drink that is in no way inferior in taste to classic spirits. Delicious herbs in combination with selected botanicals make Polly a unique taste experience and an ideal alcohol-free refreshment.

The Italian Aperitif is a bittersweet mix of sweet oranges and a herbal blend with gentian, creating the perfect sunny taste explosion. The London Classic is where ginger meets cucumber, promising a unique combination of mild spiciness and pure refreshment. With a hint of lemon, it's the perfect drink for a sundowner.

FOR THE LITTLE BREAK IN BETWEEN: “MALIK-MINT”

When founder Saddia travelled through Southeast Asia during a break from her job, she discovered the exotic taste of lime in combination with mint in Pakistan. Enthusiasm and the desire to establish the refreshing mix in the western world were quickly sparked. The goal: enjoying a bottle of MalikMint should be a refreshing way of quality time and let the consumer forget the hustle and bustle of everyday life for a moment. The drink is available in the flavours mint-rhubarb, mint-lime and mint-apple.

The company is also committed to a sustainable lifestyle and a positive contribution to the world. From a deposit system that reduces the ecological footprint, to ingredients from a controlled and organic cultivation, to the support of an orphanage in Benin. So, it's high time to press the refresh button!

„MALA PERUVIANA“: ALARMSTUFE ROT!

Mala Peruviana-Produkte sind Premium-Tomatensaft-Mixer für die Zubereitung von Cocktails wie Bloody Mary, Red Snapper, Micheladas und Sangrita. Sie eignen sich aber auch als gesunde Energydrinks für Sportler. Zur Herstellung verwendet das Unternehmen ausschließlich reife Tomaten, die unter der Sonne Griechenlands angebaut werden. Die Produkte enthalten zudem keine Konservierungs- oder Farbstoffzusätze, sind vegan und glutenfrei.

Neben den erfrischenden Tomatensaften „Mala Peruviana naked tomato“ und „Mala Peruviana Dreat Red“ gibt es auch noch zwei weitere Mixer zu entdecken: „Mala Peruviana Dreat Fire“ mit Chili hat einen einzigartig feurigen Charakter. Durch eine explosive Kombination von Gewürzen wird der Geschmack der Tomaten hervorgehoben.

„Mala Peruviana Dreat Earth“ enthält unter anderem Rote Bete und schwarze Karotte. Die unterschiedlichen Geschmacksrichtungen und -intensitäten bilden ein ideales Gleichgewicht zwischen süß und salzig.

“MALA PERUVIANA”: RED ALERT!

Mala Peruviana products are premium tomato juice mixers for preparing cocktails such as Bloody Mary, Red Snapper, Micheladas and Sangrita. But they are also suitable as healthy energy drinks for athletes. The company uses only ripe tomatoes grown under the Greek sun for production. The products also contain no preservatives or colourings and are vegan and gluten-free.

In addition to the refreshing tomato juices "Mala Peruviana naked tomato" and "Mala Peruviana Dreat Red", there are also two other mixers to discover: "Mala Peruviana Dreat Fire" with chilli has a uniquely fiery character. An explosive combination of spices brings out the flavour of the tomatoes. "Mala Peruviana Dreat Earth" contains beetroot and black carrot, among others. The different flavours and intensities form an ideal balance between sweet and salty.

„THE PRODUCER“: MEZCAL ENTDECKEN

Zeit für das Beste aus der Agave, Zeit für Mezcal! Der Name des Unternehmens „The Producer“ soll für Qualität und Leidenschaft stehen und eine Hommage an diejenigen sein, die etwas erschaffen und stolz auf die kleinen Details sind, die Dinge so einzigartig machen. Und genau diese Liebe zum Detail spürt man allein schon, wenn man sich ihre Produkte anschaut: So soll beispielsweise das minimalistische Flaschendesign den Konsumenten in kleine mexikanische Dörfer in Oaxaca versetzen, wo die Etiketten von Spirituosen einfach ein Stück Klebeband sind.

Oaxaca ist das Herz der mexikanischen Mezcal-Produktion. Durch die unvergleichliche Artenvielfalt bringt dieser Teil Mexikos einzigartige Spirituosen hervor, die die Geschichte der Landschaft spürbar machen – und das gilt auch für „The Producer“. Auf dem BCB können die Besucher ihren Mezcal kosten und sich von dem einmaligen Geschmack der Agave überzeugen lassen.

VULKANISCHE DRINKS MIT „ETNA TWIST“

Der Ätna ist der höchste aktive Vulkan in Europa, dessen vulkanische Böden einzigartige Aromen und Düfte hervorbringen. Seinen unberechenbaren und spannenden Charakter möchte Etna Twist auch in ihren Produkten widerspiegeln. Denn genauso wie der Ätna, kommt auch das junge Unternehmen von der italienischen Insel Sizilien.

Zum Produkt-Portfolio von Etna Twist zählen unter anderem der Volcanic Premium Gin „Etneum“ sowie der Etna Aperitif, der seine besondere Kraft aus Rohstoffen von den Hängen des Ätna zieht. Zudem gibt es neben dem Etna Bitter und dem Etna Vermut auch noch das erfrischende Tonic Water „Fotonica“.

“THE PRODUCER“: DISCOVERING MEZCAL

Time for the best of the agave, time for mezcal! The name of the company "The Producer" is meant to stand for quality and passion and is a tribute to those who create something and are proud of the small details that make things so unique. And it is precisely this attention to detail that you can feel just by looking at their products: For example, the minimalist bottle design is meant to transport consumers to small Mexican villages in Oaxaca, where liquor labels are simply a piece of tape.

Oaxaca is the heart of Mexican mezcal production. With its unparalleled biodiversity, this part of Mexico produces unique spirits that make the history of the countryside palpable - and this is also true for "The Producer". At the BCB, visitors can taste their mezcal and be convinced by the unique taste of the agave.

VOLCANIC DRINKS WITH “ETNA TWIST”

Etna is the highest active volcano in Europe, whose volcanic soils produce unique flavours and aromas. Etna Twist wants to reflect its unpredictable and exciting character in its products. Because just like Etna, the young company also comes from the Italian island Sicily.

Etna Twist's product portfolio includes the Volcanic Premium Gin "Etneum" and the Etna Aperitif, which draws its special strength from raw materials from the slopes of Mount Etna. In addition to Etna Bitter and Etna Vermut, there is also the refreshing tonic water "Fotonica".

„PODOLE WIELKIE“: JEDE FLASCHE ERZÄHLT EINE GESCHICHTE

Die Okowitas und Wodkas der Podole Wielkie Distillerie werden mit hoher Sorgfalt hergestellt. Durch die Verwendung ausschließlich hochwertiger Rohstoffe und die Destillation in einer einzigartigen Kupfersäule erhalten sie den angenehmen Geschmack der Rohstoffe im Endprodukt. Das macht ihre Spirituosen – im Vergleich zur Geschmacksneutralität vieler traditioneller Wodkas – sehr schmackhaft. Der gesamte Prozess der Herstellung von Podole Wielkie Produkten findet an einem Ort statt, daher auch ihr Axiom „vom Feld zur Flasche“: Sie säen das Getreide, pflanzen die Kartoffeln an und füllen schließlich das daraus resultierende Destillat von Hand in Flaschen ab und etikettieren es.

Auf dem BCB möchte das Unternehmen die Standbesucher darüber aufklären, warum "Terroir" für polnische Okowitas wichtig ist und wie qualitativ hochwertige, traditionelle Alkohole hergestellt werden. Außerdem wollen sie verdeutlichen, warum Rohstoffe für sie so wichtig sind und zeigen, welche Produkte sie aus Bier herstellen.

Außerdem dürfen sich die Besucher des BCB noch auf sieben weitere junge Unternehmen mit spannenden Brands in der Young Guns-Area freuen. Ebenfalls mit dabei: B&M Special Brands, Melisanidi Distillery, Paó de Sitges Gin, Legado Organic Craft Distillery, Labtenders, Klettis Genussboutique und Kedes Tzevelekos & Sia Ee.

“PODOLE WIELKIE“: EVERY BOTTLE TELLS A STORY

The okowitas and vodkas of the Podole Wielkie Distillery are produced with great care. By using only high-quality raw materials and distilling them in a unique copper column, they preserve the pleasant taste of the raw materials in the final product. This makes their spirits very tasty - compared to the taste neutrality of many traditional vodkas. The entire process of making Podole Wielkie products takes place in one place, hence their axiom "from field to bottle": they sow the grain, plant the potatoes and finally bottle and label the resulting distillate by hand. At the BCB, the company wants to educate stand visitors about why "terroir" is important for Polish okowita and how high-quality, traditional alcohols are produced. They also want to illustrate why raw materials are so important to them and show what products they make from beer.

Außerdem dürfen sich die Besucher des BCB noch auf sieben weitere junge Unternehmen mit spannenden Brands in der Young Guns-Area freuen. Ebenfalls mit dabei: B&M Special Brands, Melisanidi Distillery, Paó de Sitges Gin, Legado Organic Craft Distillery, Labtenders, Klettis Genussboutique und Kedes Tzevelekos & Sia Ee.

Once again this year, Angus Winchester – BCB Director of Education – takes the lead in curating and assembling the rich education programme at Bar Convent Berlin 2022. But for the first time ever he is joined by two industry experts – Damien Guichard and Eleni Nikoloulia – to make the programme even more versatile and multifaceted.

Meet the BCB Education Board!

ANGUS WINCHESTER

Angus has spent nearly 35 years in the hospitality and drinks industries with a self-proclaimed mission to learn as much as he can about 'drinks, drinkers and those that serve them'. In that time he has made drinks, run bars, trained bartenders and coached managers, won awards for his brand ambassadorship, his public speaking and his mentoring. He is currently the Director of Drinks & People at the Wild west Group in the UK.

EDUCATION

DAMIEN GUICHARD

Damien has been in Berlin for 10 years where he discovered his passion for bartending and the bartending community. In the recent years he has been the BA for BCB where he plays a pivotal role between the show and the bartending community. He currently manages Wax On Bar in Berlin, Neukölln as remaining an actor of the bar scene is important to him. He considers education and the passing of knowledge as the most important aspect of our bar industry because of the lack of formal and structured education.

ELENI NIKOLOULIA

Eleni studied political science before moving to work in lifestyle and travel magazines in her home country, Greece. From here, she developed a great passion for the bar sector with a dream to further promote new ideas, responsibility and inclusivity within the bar industry.

She is a partner at Difford's Guide Greece & Cyprus, an Academy Chair for the World's 50 Best Bars, the co-founder of non-profit civil partnership Metron Ariston: Making Responsibility a Trend; and co-organiser of Athens Rum and Whisky Festival; Athens Cocktail Week; Cyprus Cocktail Festival; and of Aegean Cocktails and Spirits, a project that promotes Greek spirits through various activations, and projects.

PROGRAMM

DEUTSCHE BARKEEPER UNION E.V. (DBU)

The German Barkeeper Union e.V., founded in 1909, is a professional association for all people who have a passion for bar culture. The focus of our work is on knowledge transfer, training and lobbying. Our goal is to bring together as many people as possible from our industry, to make our voice heard and to influence society's perception in a positive way. For more information please visit our page: www.dbu-ev.de Our members have the opportunity to constantly work on their personal portfolio thanks to a large Germany-wide network and are given the opportunity to access an immense range of experience, knowledge and development thanks to the organisational structure. Networking combined with a variety of workshops is the focus of BCB 2022, where DBU will be present with its own presence. We look forward to the exchange and certainly also to the one or the other reunion.

RUBEN NEIDECK

By shaping the now famous Velvet in Berlin as headbartender from its opening, Ruben Neideck has set a new standard for what it means to truly work seasonally in drink making. The bar is renowned for its weekly changing cocktail menu, driven by locally foraged and farmed ingredients from the area around Berlin. Over his more than 5 year stint there, Ruben has shaped the inner bar infrastructure & rhythm required to accomplish the weekly drink change and has come to be regarded as one of the leading experts on foraging and processing of seasonal plants into drink form in Germany. At BCB, Ruben will share what he has learnt from working closely with urban gardeners at the Urban Gardening Area in hall 18.

Why visit our stand: Sibona is one of the historical distilleries in the Piedmont region and can boast the oldest distillation licence, the N°1, issued by UTF. This is a synonym for a great past and prestige.

Founded about a hundred years ago the distillery is located in the centre of an important wine area, called Roero zone, where the most typical vines from Piedmont are cultivated. From its origins Sibona has handcrafted its "grappas" from single vine varieties. Besides the selection of the best mark of the zone, Sibona's grappas reach high quality levels thanks to the accurate distillations, constant updating and improvement of the equipment, the experience of three oenologists, ad last, a long aging period in barrels.

Dieser Gin ist inspiriert von den Erkenntnissen des legendären Schweizer Botanikers Moisés Bertoni, der ganz Paraguay bereiste und einheimische Kräuter und Pflanzen erforschte. Diese wilden Pflanzen und Kräuter, die unseren Gin inspiriert haben, kombiniert mit dem genauen Zeitpunkt der Mazeration. Die ausgewählten Kräuter werden biologisch produziert, eine Praxis, die von Anfang bis Ende beibehalten wird. Die Qualität unseres Gins basiert auf einem subtilen, handwerklichen Entwicklungsprozess. Seine Perfektion ist das Ergebnis zahlreicher Destillationen, die ihm ein natürlich harmonischeres und intensives Aroma verleihen.

This gin is inspired in the findings of the legendary Swiss Botanist Moisés Bertoni, who traveled all over Paraguay, researching native herbs and plants. These wild plants and herbs that inspired our gin, combined with the exact time of maceration. The selected herbs are produced organically, a practice that is maintained from beginning to the end. Our gin's quality is based on a subtle, artisanal development process. Its perfection is a product of numerous distillations, which grant it a more naturally harmonious and intense aroma.

Why visit our stand: Vermouth Bordiga is enriched by the FIRST ORGANIC SUPERIOR VERMOUTH by the Consorzio del Vermouth di Torino IGP, come and visit us at our stand you can taste it!

The history of the Bordiga Distillery began in 1888 with its foundation at the base of the Alps, near Cuneo. Today Bordiga is known in various parts of the world. The common thread between past and present is the passion for a job that respects the environment and the traditional production methods, faithfully maintained over the time. Each Bordiga product contains the soul of its origin and the unique and aromatic taste of mountain herbs. At every sip, tradition and innovation intertwine in a triumph of flavors, which are worthy ambassadors of the excellence of these artisan products.

Over the years, the company grew thanks to the quality and genuineness of the products. It became a reference point not only for Vermouth, but also for liqueurs and spirits produced with alpine botanical herbs. In the early 1900s, using a copper alembic, a juniper distillate production started: this was the birth of our Occitan Gin.

In the heart of Aosta Valley, the smallest region in northern Italy, St.Roch distilleries give birth to traditional spirits and liqueurs. Schweppes ist nicht umsonst Marktführer im Bereich der Bitterlimonaden. 1783 perfektionierte Juwelier Jacob Schweppe ein Verfahren zur industriellen Herstellung von mit Kohlensäure versetztem Mineralwasser. Seitdem steht Schweppes für außergewöhnliche Geschmackserlebnisse und konstante Premium-Qualität.

There is a reason why Schweppes is the market leader in bitter lemonades. In 1783, jeweller Jacob Schweppe perfected a process for the industrial production of carbonated mineral water. Since then, Schweppes has stood for exceptional taste experiences and consistent premium quality.

Die Geschichte von Toro Spirits ist die Geschichte einer Familie und eines Territoriums. Dort versammelten sich verschiedene Heilpflanzen. Seit sechs Generationen folgen die Mitglieder der Familie Toro an der Spitze des Unternehmens und geben die Geheimnisse der Rezepte weiter.

Botanically Brewed ist kein Claim, den wir zu Marketingzwecken verwenden, sondern die Technik der Herstellung von Getränken höchster Qualität, die in der Familie Fentimans von Generation zu Generation weitergegeben wird. Tatsächlich ist es das Botanical Brewing, das uns von anderen kohlensäurehaltigen Getränken abhebt. Why visit our stand: We want to share with you our vision on the world of distillates through authentic flavors and powerful suggestions. Join us in this marvelous journey from the lands of Italy to the desert of Mexico.

GCS is an itinerant distillery project and it is not tied to a single place. We use aromas and flavors to tell about our beloved places, distilling their essence with handpicked wild botanicals. In 2020 Gin Terrae was born, a trilogy which represents three Italian sceneries: The Dolomites, 5 Terre National Park and Emilia-Romagna countryside with its endless golden fields. In October 2021 we distilled Sotol Padre de Las Serpientes in Chihuahua, and we did it with 5th generation sotoleros. We pick herbs, we make recipes, we distill, we design our labels, we are in love with what we do!

Why visit our stand: Lernen Sie Ghost Tequila kennen, einen hochinnovativen, würzigen Tequila aus 100 % Agave, die ideale Spirituose zum Mixen von würzigen Margaritas und anderen würzigen Cocktails.

Meet Ghost Tequila, a highly innovative 100% agave spicy tequila, the ideal spirit to mix spicy margaritas and other spicy cocktails.

Ghost Tequila ist eine der am schnellsten wachsenden neuen Tequila-Marken der Branche. Ghost wurde in einer Bar geboren, nicht in einem Sitzungssaal, kreiert von einem Barkeeper, der die Notwendigkeit eines hochwertigen Tequila aus 100 % Agave erkannte, um würzige Cocktails konsistenter und einfacher zu mixen. Also ging er nach Mexiko und schuf einen. Sein Ziel war in erster Linie, einen großartig schmeckenden Tequila herzustellen und ihn dann scharf zu machen. Ghost Tequila kombiniert genau die richtige Menge an ausgewogener Hitze, ohne den natürlichen Geschmack der Agave zu unterdrücken. Ghost Tequila, now available in Europe, is one of the fastest-growing new tequila brands in the industry. Ghost was born in a bar, not in a boardroom, created by a former bartender who recognized the need for a high-quality 100% agave tequila to help make spicy cocktails more consistent and easier to mix. So he went to Mexico and created one. His goal first and foremost was to make a great tasting tequila, and then make it spicy. Ghost Tequila combines just the right amount of balanced heat without suppressing the natural flavor of the agave.

Why visit our stand: Other gins have a story. We have a legend. We discovered one of the very earliest gin recipes in the archives of the British Library, and have brought it back to life as Gin 1689!

In 1689, William of Orange travelled to London from the Netherlands, bringing a Dutch drink – gin – with him. Safe to say, it caught on.

In 2016, we made the same journey: two friends from Amsterdam, inspired to make the same gin, made to the original 1689 recipe, a hit all over again.

We discovered one of the very earliest gin recipes in the archives of the British Library, and have brought it back to life as Gin 1689. Our London Dry and pink Queen Mary Edition are a taste of the true originals. And they're well worth the 300-year wait.

Why visit our stand: Iwanoi ist einer der „TYPISCHEN japanischen Ganzkörper-Sake“ in Japan. Der Geschmack ist sehr reichhaltig, aber die Geschmacksbalance ist perfekt. Ich sage auf jeden Fall, dass Sie etwas mit IWANO ess Iwanoi is the one of the "TYPICAL Full Body Japanese sake" in Japan. Taste is very rich, but the balance of taste is perfect. I definitely say that you would like to eat something with IWANO!!!

Um mit diesem ultraharten Wasser zu brauen, verfolgt Iwanoi die „angenehmste und köstlichste Säure. Die Säure, die Süße des Reises und die Bitterkeit der Mineralien erzeugen einen kraftvollen und komplexen Geschmack. Das Aroma und die Süße werden niedrig gehalten damit der Sake beim Trinken nicht langweilig wird und sich problemlos zu verschiedenen Gerichten kombinieren lässt, nicht nur zu japanischem Essen. Im Jahr 2016 erhielt Iwanoi Yamahai Junmai Daiginjo von Iwase Shuzo eine hohe Punktzahl von 95 Punkten in der Sake-Kategorie von Parker Point, a global Wein Index.

In order to brew with this ultra-hard water, Iwanoi pursues the "most pleasant and delicious sourness. The sourness, the sweetness of the rice, and the bitterness from the minerals create a powerful and complex flavor. The aroma and sweetness are kept low so that the sake does not become boring to drink and can be easily matched with various meals, not just Japanese food. In 2016, Iwase Shuzo's Iwanoi Yamahai Junmai Daiginjo received a high score of 95 points in the sake category of Parker Point, a global wine index.

Kavka is a classic style of polish vodka with a big confident character. Drawing on the long vodka making heritage of Poland, we go back to a time in the 19th century when many distilleries would produce spirits that emphasised taste and individuality rather than trying to filter them out. From our distillery in the ancient market town of Sandomierz our growing range of spirits are all made with the same focus on authenticity, quality and flavour. This is vodka how it used to taste, bold and distinctive

Lucano ist das Ergebnis von Tradition und wurde von Innovation geprägt. Diese beiden Grundwerte haben das Unternehmen schon immer inspiriert und es zu einem Maßstab in der Spirituosenindustrie sowohl in Italien als auch auf der ganzen Welt gemacht. Eine echte Leidenschaft für die Qualität von Produkten wie "Amaro Lucano" wurde innerhalb der Gründerfamilie Vena von Generation zu Generation weitergegeben.

Lucano is the result of tradition and has been shaped by innovation. These two core values have always inspired the company, making it a benchmark in the spirits industry both in Italy and around the world. A real passion for the quality of products like Amaro Lucano has been handed down from generation to generation and today Pasquale Vena, the founder's grandson, his wife Rosistella and their sons Leonardo, Francesco and Letizia work with the same determination that has lead Lucano to become so successful.

Über die Jahre haben wir Mexiko mit all seinen Farben, der facettenreichen Kultur und den lebendigen Traditionen erlebt und die Vielfalt Tequilas kennengelernt. Für uns ist Tequila Tradition und Moderne zugleich. Gleichzeitig hatten wir den Eindruck, dass Tequila sowie die damit verbundene Tradition und das Lebensgefühl nicht entsprechend in die heutige Zeit übersetzt wurden. Daraus ist MAYACIEL geboren: ein Tequila, der den Zeitgeist des modernen Mexikos einfängt und diese fantastische Spirituose in einem modernen Design und einzigartigem Geschmack zu neuem Leben erweckt.

Over the years we have experienced Mexico with all of its colours, the multifaceted culture and living traditions. In the process we got to know Tequila in the variety of its manifestations. For us, Tequila is both traditional and modern. At the same time, we had the impression that Tequila and the tradition and attitude towards life associated with it have not been properly translated into present times. From this, MAYACIEL was born: a Tequila that captures the lifestyle of modern Mexico and awakens this fantastic spirit to new life in a modern design and unique taste.

Stillabunt ist eine Marke von Orsa Drinks S.r.l., die geboren wurde, um eine Nische auf dem Cocktailmarkt zu besetzen, die völlig unversorgt war. Stillabunt ist ein klassischer lateinischer Begriff, der einen kleinen Wassertropfen beschreibt. Wir haben den Namen Stillabunt gewählt, um zu verdeutlichen, dass nur wenige Tropfen der Produkte dieser Linie ausreichen, um Ihren Getränken etwas Besonderes zu verleihen. Magic Velvet war das erste Produkt. Heute umfasst das Sortiment 5 Produkte und wird ständig weiterentwickelt. Alle Produkte sind alkoholfrei, glutenfrei und vegan.

Stillabunt is a brand owned by Orsa Drinks S.r.l., born to satisfy a niche in the cocktail market that was woefully underserved. Magic Velvet was the first product we launched in 2020 & it rapidly grew in popularity. Today the range includes 5 products & it is still evolving. What do you get when you mix two passionate gin lovers with one vibrant Mediterranean coastal town, a keen eye for design and a love of bar & event culture? Come try the brand new Paó de Sitges Gin!

Vor fünf Jahren zogen wir aus England in die pulsierende Zielstadt Sitges, unterhalb von Barcelona. Nach einer zweijährigen Entwicklungszeit brachten wir im Dezember 2021 Paó de Sitges Gin auf den Markt, nachdem wir an 55 Rezepten gearbeitet hatten, um unser feines Gleichgewicht von 13 Pflanzenstoffen zu erreichen, indem wir Zitrusfrüchte (Kaffir Lime, Verbena) mit den lokalen (Rosmarin, Lavendel) mischten. Im vergangenen Jahr haben wir Märkte und Messen besucht, direkt an den Handel verkauft, zwei Distributoren gewonnen und ein Musikfestival (28,000 Leute) gesponsert.

Five years ago we, an English couple, moved to the vibrant, bustling destination town of Sitges just below Barcelona. After a two year development period December 2021 saw us launch Paó de Sitges Gin, having worked on 55 recipes to achieve our delicate balance of 13 botanicals, mixing the citric (kaffir lime leaves, verbena) with the local (rosemary, thyme, lavender). This past year we have attended markets & trade fairs, sold direct to trade, attracted two distributors and sponsored a 28,000 capacity music festival. We have interest from the UK, France and Italy are looking for partners.

Partisan has reinvented itself and a whole range of new products are waiting for you! The entire product portfolio is now crafted in Germany. Above all, look forward to a special trade fair launch ...

Partisan ist als unabhängiger Vodka nicht aus der Bar und Clubszene wegzudenken. Bekannt für Qualitätsprodukte zu fairen Preisen und klare Werte, hat Partisan direkt bei Kriegsbeginn entschieden, keine Produkte mehr in Belarus herzustellen. Alle Produkte, wie bereits zuvor der Partisan Green, wurden auf eine Produktion in Deutschland umgestellt. Um den Qualitätsanspruch zu halten, wurde auf das handwerkliche Können einer Familiendestillerie gesetzt. Partisan ist weiterhin die Alternative für alle die keine Lust auf seelenlose Konzernprodukte haben. Auch in BIO und Vegan zertifizierter Qualität

As an independent vodka, Partisan is an integral part of the bar and club scene. Known for quality products at fair prices and clear values, Partisan decided right at the start of the war not to manufacture any more products in Belarus. All products, like the Partisan Green before it, were converted to production in Germany. In order to maintain the quality standards, the craftsmanship of a family distillery was used. Partisan is still the alternative for everyone who doesn't feel like soulless corporate products. Also in organic and vegan certified quality.

Why visit our stand: Wir erzählen euch, was polnischer Wodka mit „Terroir“ zu tun hat, wie hochwertige Jahrgangs-Spirituosen entstehen, warum uns der Rohstoff so wichtig ist und was wir dem Bier entlocken. Willkommen! We will enlighten you as to why 'terroir' is relevant to Polish vodka. How premium-quality, heritage alcohols are produced, why raw materials are so important to us and what we fashion out of beer.

Unsere Wodkas und Okowitas heben sich von der Geschmacksneutralität der Mainstream-Wodkas deutlich ab. Um den Charakter und das Aroma der hochwertigen Rohstoffe im Endprodukt zu unterstreichen, werden diese in einer einzigartigen Kupfersäule destilliert. Unsere Philosophie „Vom Feld in die Flasche“ bedeutet, dass der gesamte Herstellungsprozess an einem Ort stattfindet. Von der Aussaat des Getreides und dem Setzen der Kartoffeln bis hin zur manuellen Abfüllung und Etikettierung - jede Flasche hat ihre eigene Geschichte.

Podole Wielkie Okowitas and vodkas are carefully crafted, which results in a more palatable spirit in comparison to the taste neutrality of the traditional mainstream vodkas. Using only premium quality raw materials and distilling in a unique copper column, it is now feasible to retain the pleasing raw material tastes within the final product. The entire process of creating our products takes place at one location, hence our axiom 'from field to bottle'. We sow the grain, plant the potatoes, and eventually hand-bottle and label the resulting distillate. Every bottle tells a story.

Why visit our stand: Santa Ana, der neue, einzigartige Gin überzeugt mit seinen blumigen und doch fruchtig-spritzigen Noten – ein Fest für die Sinne, von dem man nicht genug bekommt.

Santa Ana welcomes you to indulge all of your senses and discover this exuberant, luscious new Gin. Floral yet effervescent, you'll always want more.

Santa Ana Gin ist eine Liebeserklärung an das Manila der 1920er Jahre und die berühmten Tanzsäle der Hauptstadt – allen voran das legendäre Santa Ana Kabarett. Der Gin wird im Charente, einer Region im Norden Frankreichs, destilliert und abgefüllt. Und genau hier entstehen seine unverwechselbaren blumigen und tropisch-fruchtigen Noten. Möglich machen das die vier auf den Philippinen heimischen Botanicals Ylang-Ylang, Alpinia, Calamansi und Dalandan, die mit sieben traditionellen Gin-Zutaten vereint werden.

Santa Ana gin is a homage to the inimitable dancehall days of 1920s Manila and its crown jewel, the legendary Santa Ana Cabaret. Santa Ana Gin is vacuum distilled in the Charente region of France to expertly extract four key Philippine botanicals: Ylang Ylang, Alpinia, Calamansi and Dalandan. This combination of delicate floral top notes and a fresh tropical citrus palate complements the seven traditional botanicals in our recipe, evoking the nostalgia of a smoky tropical champagne room, big band swing and the glamour and decadence of days gone by.

In 1765 it moved to Koriyama and continued to produce its famous sake, bathed in the wind blowing down Mt. Bandai. But the shortage of rice following the war forced the brewery on hard times. This is when it turned to making whisky, which gained popularity with the influx of western culture. Sasanokawa Shuzo Co., Ltd. was founded in 1765 and acquired a license to produce whisky in Japan in 1946. Since then, we have been producing it as the oldest "whisky distillery" in Tohoku Japan area

The continuous distillation process creates a lighter style of spirit, which is then matured in ex-bourbon barrels and finished in a combination of infrared & fire toasted virgin American oak barrels. The use of infrared toasting is first in the Scotch whisky world and allows intricate flavours to be extracted that make the spirit sweeter. This results in a whisky that's lighter, sweeter and more accessible.

Why visit our stand: Erlebe dein blaues Wunder und tauche ein in die magische Welt des Illusionist Dry Gin! Unser handgemachter Münchner Bio Gin vereint Einflüsse aus aller Welt und überrascht mit einem Twist.

Alles begann 2015 mit Tim, Max und einer magischen Idee: Ein tiefblauer Gin, der geschmacklich Neues wagt – und einen besonderen Twist auf Lager hat. Mit Tonic gemischt wandelt er sich von einem satten Blau in ein sanftes Hellrosa: Der Illusionist Dry Gin war geboren! Anfangs nur in ausgewählten Bars zu finden, hat sich der Illusionist zum Geheimtipp unter Gastronomen und Genießern entwickelt – und sorgt täglich für zauberhafte Gin-Erlebnisse.

16 feine Botanicals: Erdig-würzige Macis, ein Hauch Süßholz, fruchtige Zitruszesten...getragen von kräftigem 45 % Alkohol. Handgemacht. 100 % bio.

In 2015, Tim Steglich alongside with Max Muggenthaler conceptualised a new gin: a deep blue gin characterised with a fruity and floral nature, topped off with a distinguished twist. When combined with tonic, the otherwise royal blue colour undergoes a natural reaction, to become a gentle pink concoction. And with that, The Illusionist Dry Gin was born. 16 botanicals: earthy-warm nutmeg shells, citrus elements and blended with liquorice roots. Handmade. 100% organic. Mysterious.

Brands we represent: Ümmi kombucha

Why visit our stand: Europe's first alcoholic kombucha, born in Portugal. We ferment green tea from the Azores into a 6% organic and vegan certified, fizzy drink that comes in 2 flavors: Hibiscus Berry and Ginger Lemon.

Hard kombucha is an alternative to beer and sugary cider. We assured the backing of a community of athletes, artists and innovators to help spread the word about the new category. The ancient fermentation technique to make our base gives it a full body and signature taste. We then use champagne yeasts for the alcoholic fermentation to complete the process. The result is a tart-sweet and fizzy, full-bodied 6% hard kombucha; naturally gluten-free, vegan, organic and low sugar. It is a drinks category that first gained momentum in the US, exhibiting immense growth potential in recent years.

Brands we represent: Lucky Sod | Scorch
Why visit our stand: Urchin Spirits ist ein rebellisches Getränkeunternehmen, das die Shot-Kategorie mit trendigen Geschmacksprofilen und einem sanfteren Geschmack mit zwei Whiskey-basierten Likören – Lucky Sod und Scorch. Urchin Spirits is a rebellious drinks business set to disrupt the shot category with on-trend flavour profiles and a smoother taste with two whisk(e)y based liqueurs - Lucky Sod and Scorch.

Lucky Sod ist ein irischer Whiskey-Likör mit Aromen von Toffee, Karamell und Vanille, mit einem schelmischen, grinsenden Katzencharakter, inspiriert von der Fabel der glücklichen schwarzen Sumpfkatze, der die üblichen Designmerkmale umdreht, die normalerweise bei irischem Whiskey zu sehen sind. Scorch ist ein Scotch-Whisky-Likör mit einem Schuss kandierter Blutorange, süßer Vanille und Chili-Schärfe. Das Logo steht fest gegen die Scotch-Konvention und zeigt den klassischen Hirsch, aber mit Feuerhörnern, passend zum Mantra „Let Tradition Burn“. Lucky Sod is an Irish whiskey liqueur with flavours of toffee, caramel and vanilla. It features a mischievous, smirking cat character, inspired by the fable of the lucky black bog cat, flipping the usual design cues normally associated with Irish whiskey. Scorch is a Scotch whisky liqueur with an added whack of candied blood orange, sweet vanilla and chilli heat. Standing firmly against Scotch convention, the logo illustrates the classic stag but with horns of fire, matching the 'Let Tradition Burn' mantra.

VÁNAGANDR DISTILLERIES entsteht als Projekt, welches sich auf die Destillation hochwertiger Spirituosen konzentriert und mit Liebe zum Detail nach Exzellenz und Produktdifferenzierung strebt. Als erstes Destillat aus unserer Destille kreierten wir Vánagandr London Dry Gin. Wir haben uns für eine traditionelle Destillation entschieden, die der handwerklichen Erfahrung galicischer Destillateure folgt, ohne auf die Neuerungen zu verzichten, die uns die Destillationstechnologie heute bietet. Diese wird in unsere Destille integriert, ohne die Essenz zu verlieren die wir bewahren möchten.

VÁNAGANDR DISTILLERIES emerges as a project that focuses on the distillation of high quality spirits, striving for excellence and product differentiation, with attention to every detail.

As a first distillate coming from our still we create Vánagandr London Dry Gin, we opted for a traditional distillation following the artisan experience in Galicia distillers without giving up the contributions that distillation technology offers us today and incorporate it into our still without losing the essence that we want to preserve.

Why visit our stand: Lernen Sie eine der ältesten, wenn nicht sogar die älteste Wachholderbrennerei Deutschlands kennen, die sich seit 1817 fast ausschliesslich mit der Destillation von Wacholder beschäftigt.

Get to know one of the oldest, if not the oldest, juniper distillery in Germany, which has been dealing almost exclusively with the distillation of juniper since 1817.

Die Firma Eversbusch wurde im Jahre 1780 gegründet und seit 1817 wird der "EVERSBUSCH"-Doppelwachholder 46 % nach überliefelter und bis heute nicht veränderter Rezeptur in der Destillierblase aus dem Jahr 1817 destilliert.

Mittlerweile wird dies heute von den Ur-Ur-Urenkel des Peter Christoph Eversbusch in sechster Generation getan. Auch bei der Auswahl der Wachholderbeeren wird seit mehreren Generationen derselbe Importeur zu Rate gezogen, um dem Kenner hochwertiger Spirituosen gleichbleibende Qualität bieten zu können.

The Eversbusch company was founded in 1780 and since 1817 the "EVERSBUSCH" Doppelwachholder 46% has been distilled in the still from 1817 according to a recipe that has been handed down and has not been changed to this day. Today, this is done by the great-great-great-grandchildren of Peter Christoph Eversbusch in the sixth generation. The same importer has been consulted for several generations when selecting the juniper berries in order to be able to offer the connoisseur of high-quality spirits consistent quality.
